## Position: Graphic Design Intern

### ***Organization Overview***

The Africa Center for Health Systems and Gender Justice is an organization committed to enhancing health systems and advancing gender justice throughout Africa. The center focuses on the social, economic, and cultural factors that contribute to unequal health outcomes for different genders and works to promote gender-responsive healthcare and gender-inclusive policies. We are currently looking for passionate and dedicated interns to join our team in various specialized roles. We are deeply committed to feminism and its core principles. We challenge norms, address systemic injustices, and recognize the intersectionality of gender-based discrimination with other forms of oppression. Inclusivity is a priority for us, ensuring marginalized voices are heard, and our commitment to feminist principles includes advocating for gender equality, acknowledging intersectional experiences, empowering individuals, fostering solidarity, and holding ourselves and others accountable. Our dedication to feminism is dynamic, evolving as we learn from the communities we serve. We are proud to be working towards a world where gender equality is a lived reality for everyone.

***Location: Remote***

***Duration: Months***

### ***Key Responsibilities:***

- **Design Creation:** Assist in the design and production of digital and print materials, including brochures, posters, banners, social media graphics, and newsletters.
